

Whenever possible please complete these survey questions for each client accessing needle exchange or brief intervention. For current guidance related to Coronavirus(COVID-19) please refer to <https://www.gov.uk/coronavirus>

- 1. The client reported difficulties with 'social distancing' from other people?
(current guidance is to stay 2 metres away)
- 2. The client reported problems accessing basic needs, such as food and toiletries?
- 3. The client reported problems accessing medicines, healthcare or harm reduction supplies (e.g. needles syringes)?
- 4. The client reported concerns about having symptoms of Coronavirus such as a persistent cough or high temperature?
- 5. The client's mental health had been affected by the current environment?
- 6. The client's alcohol/drug/tobacco use has increased, or changed, due the current environment?

Notes or comments (if applicable):

Guidance notes:

After a new intervention or transaction is entered into IMS a pop-up form will appear with these six questions. Responses should be recorded in this pop-up window.

The questions are designed that responses might be gained from a brief conversation with the client, but if you do not have some of the information or are unsure just complete as many questions as you're able.
